

Defense Information Systems Agency (DISA)

FURNITURE PROCUREMENT REQUEST FOR INFORMATION (RFI)

May 21, 2008

Responses due: June 4, 2008

1.0 Project Background and General Information

The Government is using this RFI as a means to solicit and evaluate capabilities from current General Services Administration / Federal Supply Service (GSA/FSS) scheduled 71 11 K-712 5 contractors. Vendors that meet the capabilities set out by DISA and the United States Army Corps of Engineers (USACE) under this RFI will receive the RFP.

1.1 Directions for Submittal

The Responder is required to respond to each of the following technical specifications by using only one of the following options (noted in blue throughout the RFI), and to provide the additional information requested where applicable.

 Yes, Responder meets specification. *No, Responder does not meet specification.*

1.2 Project Concept Statement

The DISA at Fort Meade, MD will need to procure Package Environment services, provide office casegoods, open plan workstations for their new facility that will house 4,272 staff positions. Beyond the casegoods and systems furniture, DISA will need to purchase support space furniture such as:

- Storage/filing units
- Conference room furniture
- Computer Workstations for the TE-Lab
- High-density filing
- Wellness furnishings
- Command Center Workstations
- Display Walls
- Cafeteria Furnishings
- Ancillary Furniture: lounge, break room, training
- Seating
- Command Center Furniture

See attached list of preliminary estimated products and quantities, **Attachment 1**.

Furniture Procurement RFI for DISA

The government intends to contract with a single contractor entity to provide all the services and products required for the project. The responder will form the team necessary to make available all the services and products required under a single contract award.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

1.3 Project Management and Overall Supervision

The Contractor shall be responsible for all work performed under the contract, including work of subcontractors and others under them by contract or otherwise directed. The Contractor will, without cost to the Government, correct improper work to the satisfaction of the USACE and DISA and correct schedule delays due to the fault of the Contractor.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

_____ *Yes Responder with exceptions (List or describe):* _____

USACE and DISA reserve the right to inspect the manufacturing and/or the installation processes at any time during the project and to reject the same if determined not to be in conformance with the project requirements and/or specifications. All rejected work shall be replaced and/or corrected immediately at the Contractor's expense; any schedule delay that results will be the responsibility of the Contractor.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

USACE reserves the right to direct the Contractor to partially or wholly cease activity if the work performed does not comply with project requirements. Such stoppage, suspension, or forfeiture shall not in any way invalidate the terms of the contract or cause schedule slippage.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

Should the USACE and DISA deem it necessary to delay the delivery and installation dates, USACE shall notify the Contractor as soon as possible. The Contractor may be required to warehouse the shipped product at no cost to the USACE and DISA up to 45 days. The Contractor will be responsible for providing adequate liability insurance on any storage facility or space. USACE and DISA will negotiate monthly storage cost in the case the 45 day period is exceeded.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

_____ *Yes Responder with exceptions (List or describe):* _____

In the event that damages occur through negligence by the Contractor, or failure to notify others regarding requirements necessary for the performance of the Contractor's work, or failure to give correct information or dimensions regarding same, the Contractor shall be fully responsible for correcting, at its own expense, any

Furniture Procurement RFI for DISA

damaged and incorrect work caused by its acts, omissions, and any delay that results from such acts.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

_____ *Yes Responder with exceptions (List or describe):* _____

In all cases where the prime furniture Contractor's subs or partners causes or is alleged to have caused damages to any other contractor's work, the furniture Contractor shall hold USACE and DISA harmless for the sub's/partners alleged actions. The furniture Contractor shall pay for any such damages and/or defend such proceedings, satisfy any judgment awarded, and pay all expenses arising in relation to such action.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

_____ *Yes Responder with exceptions (List or describe):* _____

1.4 Installation and Schedule Overview

USACE and DISA require the Contractor to execute the product specific design, specifications, orders, delivery and installation of the estimated 550 to 600 private offices, and 3,600 - 4,000 workstations between 36SF and 90SF, within the time frames needed by the project schedule. The successful Contractor, in the event of furniture installation delays and in accordance with FAR 11-501, will pay financial penalties, equating to the cost of incurred by the government resulting from such delays. The proposed schedule is:

- Questions due: May 27, 2008
- Responses to Questions: May 30, 2008
- Responses to RFI: June 4, 2008
- Evaluate offerors to determine qualifications: June 5-6, 2008
- RFP issued: June 16, 2008
- Site visit of existing facility to review furniture: June 23, 2008
- Responders proposals due: July 11, 2008
- Source selection review: July 16-22, 2008
- Mock-up review: July 16-22, 2008
- Award of contract: July 23, 2008
- Successful responders meet with team to deal planning concepts and preliminary furniture package: August 1, 2008
- Phase 1 CID package due : August 2008
- Installation schedule the responder shall be able to deliver and install approximately 150 – 200 workstations a week, for a duration of 21 – 28 weeks starting in the summer of 2010, with the ability to staff up and install up to 300 if needed.

_____ *Yes, Responder will comply.* _____ *No, Responder will not comply.*

Yes Responder with exceptions (List or describe): _____

1.5 Price and Evaluation Overview

The Government will select the proposal that represents the “best value” to the Government based on responses to the RFP. The “best value” approach considers the appropriate balance of management capability, past performance, dealer capabilities, technical merit, innovation points, team experience, sustainable merits, and cost factors. After review of initial proposals government reserves the right to hold negotiates with the offerors. An evaluation team will select the proposal that represents the best value for the Government.

2.0 Qualifiers

The following criteria are considered to be minimum capabilities by USACE and DISA to receive the RFP for this project:

2.1 Packaged Environment Provider - The responder must demonstrate that they will partner with appropriate vendors on GSA schedule that meet the requirements, and are willing to enter into an indefinite-delivery/indefinite-quantity (IDIQ) contract, with the first purchased scheduled for 2009. Responders must be willing to include the full product offering of their partner manufacturers that are on GSA schedule as part of the IDIQ for future purchases at the same discount as the base items included in the bid.

Yes, Responder meets specification. No, Responder does not meet specification.

If yes, please list the systems furniture vendor the responder would include in their bid.

2.2 Sustainability - The responder must show that they meet the requirements for, and have achieved, certification as established and deemed acceptable by the US Green Building Council to assist with meeting the sustainability goals of the project. Specifically, that the furniture will directly contribute to Material and Resource Leadership in Energy and Environmental Design (LEED) points M&R 4.1, 4.2, and 7. Products must contain the required recycled content and Forest Stewardship Council certified wood as requirements to earn the LEED point.

Yes, Responder meets specification. No, Responder does not meet specification.

Indoor Air Quality must also be addressed to achieve EQ credits 4.1, 4.2 and 4.4. Off-gassing of the furniture should be mitigated.

Yes, Responder meets specification. No, Responder does not meet specification.

2.3 Ability to Provide Hard Conduit Protected Distribution System (PDS) and Separated Raceways (4 separated by 6" min.) The responder must show that they can provide a systems panel that is segmented and stackable, can provide a minimum of 5 separate raceways. Four (4) of the raceways

Furniture Procurement RFI for DISA

must have lay-in capability internal to the panel. These are separated by a minimum of 6": one shall be at the base; the second below the work surface but within 6" of it; the third is 32" above the finished floor; the fourth shall be at the top of the panel. The fifth raceway will be the PDS, it shall be located 42" above the finished floor. The responder should demonstrate that they can provide a hard conduit, protected distribution system (PDS) within the panel system. The hard conduit must be metal on 4 sides. The raceways must be at least 6"high by 3" wide. Electrical component shall feature an 8-wire, 4-circuit capability with one shared ground and two isolated ground wire. The responder shall demonstrate that they can meet the electrical requirements as stated above and illustrated in the diagram below.

(See Electrical Requirements Document - *NOTE: raceway at top of panel is not shown in diagram.)

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

2.4 Past Experience - The responder must demonstrate that they, and their systems manufacturer partner, dealer and installer, have worked on three projects of similar size and scope.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

If yes, provide the following information:

2.4.1 Primary Responder:

PROJECT # 1

- a) Project Name _____
 - b) Main Contact(s) Name, Title _____
 - c) E-mail Address _____
 - d) Address, City, State and Zip Code _____

2.5 Capacity / Liquidated Damages – With the congressionally mandates requirement that the client be moved in by September 15, 2011, all responders must be willing to agree to Liquidated damages of **\$100,000.00 per day** if this date is not met for reasons caused by the responder.

The Contractor will not be charged with liquidated damages when the delay in delivery or performance is beyond the control and without the fault or negligence of the Contractor as defined in the Default-Fixed-Price Supply and Service clause in the awarded contract.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

2.6 Project Team Experience - As part of the management approach the responder will lay out how they plan on getting the work done and who will be the primary Project Manager. This person will be the liaison between the various manufacturers, the design team, the builder (Hensel Phelps Construction Contract), and the client.

The **Primary Project Manager** must show that they have vast industry and company knowledge (years of experience should be 15 years within the industry and 2 years at the company); that the person has an understanding of government projects and has worked on at least 2 projects of similar scope and size;

Furniture Procurement RFI for DISA

and that their prime work location is within 100 miles of the project site, Ft. Meade, so they can ensure a timely response from the award of the project through 2015.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

The **Systems Furniture Manufacturers Project Manager** must show that they have vast company knowledge (years of experience should be 10 years within the industry and 2 years at the company); that the person has an understanding of government projects and has worked on a least 2 projects of similar scope and size; that they have been involved with product development work; that they have provided past clients with large scale strategic workplace solutions; and that they have an understanding of design, preferably with a design background.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

If yes, provide the following information:

2.6.1 Primary Responder:

- a) Name of Business _____
- b) Main Contact(s) Name, Title _____
- c) E-mail Address _____
- d) Local Address, City, State and Zip Code _____
- e) Telephone Numbers _____
- f) Years in Business _____
- g) Number of Employees _____

2.6.2 Dealer:

- h) Name of Business _____
- i) Main Contact(s) Name, Title _____
- j) E-mail Address _____
- k) Address, City, State and Zip Code _____
- l) Telephone Numbers _____
- m) Years in Business _____
- n) Number of Employees _____
- o) Number of years the dealer has represented the manufacturers product: _____

2.6.3 Installation Contractor:

- p) Name of Business _____
- q) Main Contact(s) Name, Title _____
- r) E-mail Address _____
- s) Address, City, State and Zip Code _____

Furniture Procurement RFI for DISA

- t) Telephone Numbers _____
- u) Years in Business _____
- v) Number of Employees _____
- w) Number of full time installers. _____
- x) Most recent date for installation contractor certification for products proposed. List certification date for each product line. _____

2.6.4 Systems Manufacturer:

- y) Name of Business _____
- z) Main Contact(s) Name, Title _____
- aa) E-mail Address _____
- bb) Address, City, State and Zip Code _____
- cc) Telephone Numbers _____
- dd) Years in Business _____
- ee) Number of Employees _____
- ff) Number of full time installers. _____
- gg) Workplace consulting services provided to which government clients: _____

2.7 Security Requirements – Responders must ensure that their Project Managers and any and all team members who will need access to the job site can meet the USACE security requirements as noted below. The responder must also ensure that they can provide an adequate number of cleared staff to meet the schedule and requirements.

All Contractor employees (U.S. citizens and Non- U.S. citizens) working under this contract (to include grants, cooperative agreements and task orders) who require access to Automated Information Systems (AIS), (stand alone computers, network computers/systems, e-mail) shall, at a minimum, be designated into an ADP-III position (non-sensitive) in accordance with DoD 5220-22-R, Industrial Security Regulation. The investigative requirements for an ADP-III position are a favorable National Agency Check (NAC), SF-85P, Public Trust Position. The contractor shall have each applicable employee complete a SF-85P and submit to the Security Officer, Baltimore District, Corps of Engineers, P. O. Box 1715, Baltimore, MD 21203-1715 within three (3) working days after award of any contract or task order, and shall be submitted prior to the individual being permitted access to an AIS. Contractors that have a commercial or government entity (CAGE) Code and Facility Security Clearance through the Defense Security Service shall process the NACs and forward visit requests/results of NAC to Security Officer, Baltimore District, Corps of Engineers, P. O. Box 1715, Baltimore, MD 21203-1715. For those contractors that do not have a CAGE Code or Facility Security Clearance, the Security Office, Baltimore District, Corps of Engineers, will process the investigation in coordination with the Contractor and contract employees.

In accordance with Engineering Regulation, ER 380-1-18, Section 4, foreign nationals who work on Corps of Engineers' contracts or task orders shall be approved by the HQUSACE Foreign Disclosure

Furniture Procurement RFI for DISA

Officer or higher before beginning work on the contract/task order. This regulation includes subcontractor employees. (NOTE: exceptions to the above requirement include foreign nationals who perform janitorial and/or ground maintenance services.) The contractor shall submit to the Division/District Contract Office, the names of all foreign nationals proposed for performance under this contract/task order, along with documentation to verify that he/she was legally admitted into the United States and has authority to work and/or go to school in the US. Such documentation may include a US passport, Certificate of US citizenship (INS Form N-560 or N-561), Certificate of Naturalization (INS Form N-550 or N-570), foreign passport with I-551 stamp or attached INS Form I-94 indicating employment authorization, Alien Registration Receipt Card with photograph (INS Form I-151 or I-551), Temporary Resident Card (INS Form I-688), Employment Authorization Card (INS Form I-688A), Reentry Permit (INS Form I-327), Refugee Travel Document (INS Form I-571), Employment Authorization Document issued by the INS which contains a photograph (INS Form I-688B).

_____ *Yes Responder meets specification.* _____ *No – Responder does not meet specification.*

2.8 Leasing - The responder must be able to provide leasing options for the entire package.

_____ *Yes Responder meets specification.* _____ *No – Responder does not meet specification.*

2.9 Furniture Trade-In - The responder must offer a formal “Trade-In” Program to include the disposition of existing product (estimated at 600 offices and 4,000 workstations) and a credit for the fair market value of product, if estimated value exceeds estimated removal and loading cost any resulting savings will be applied as a credit against the purchase of new furniture. Any potential labor cost, if cost exceeds value, should be added to bid proposal.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

2.10 Asset Management - The responder must guarantee in writing that they have an electronic asset management system to include the following features.

- A bar code method to include management of major components/products (e.g. chairs, storage units, pedestals, work surfaces, overheads, etc.)
- A documented system of transactions to include receiving and storing of product
- Stocking programs with pre-determined levels of inventory at a GSA site and/or a designated storage location
- Ability to update inventory data as required
- Ability for periodic evaluation of excess inventory for reuse and/or disposal

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

If yes, please describe services and software available. _____

2.11 Technical Specifications - The responder must guarantee in writing that the systems manufacturer they have elected to partner with is willing to enter into such an arrangement and that the product offered is on GSA schedule, can meet the workstation design as illustrated in the typical workspace drawings ([See Typical Diagrams Document](#)), and can meet the following technical specifications. *(Please note that more detailed specification will be included in the RFP).*

Technical Specifications
1- All products shall be manufactured as new products. Used, reworked, or refurbished product is not acceptable.
2- The furniture system shall have capacity to be configured with commonly available tools. Any special tool(s) required to assemble product shall be provided at no additional cost.
3- Wires shall be managed through a cable management system tight under the worksurface so as to be not visible. Provide power and data outlets and access at the panel base and panel worksurface height. Worksurface height power and data outlets must be connected to integrated raceways in the panel at that height.
4- Work surface widths shall match panel widths and be mounted off module.
5- Laminate work surface edges shall be post-formed in a single sheet of material that wraps the front edge and continues under the work surface, creating a clean protective edge.
6- Adjustable height work surfaces shall be available as an option for use in limited applications to meet physically challenged personnel needs. The method of adjustment shall be electrical, by push of a button and/or by lever action.
7- Frames to be available in a minimum of four different heights ranging from 30-68 inches high. Frames shall have the ability to accept structural stacking elements, which can support components.
8- The frame must be a minimum of 16 gauge steel including supports, top and bottom rails and must be fully welded junctions
9- Frames shall be stackable. Stacking frames must be able to support hanging components on both sides.
10- Frame width options to include various widths ranging up to 48" w.
11- Worksurfaces with unsupported kneespaces of 60" or greater in length shall include steel reinforcements
12- Frames and connectors allow for horizontal lay in capability versus fish through for all voice and data cables.
13- Tiles finish options include painted and perforated steel, tackable and/or acoustical, wood, marker board, glass, and pass through.
14- The following accessories available include: tackable panels or tack boards, rail tiles or tool bars, transaction counter, paper trays and marker boards.
15- The system must include connectors that provide 2, 3, or 4 way frame connections with full finished end caps in wood or extruded aluminum

Furniture Procurement RFI for DISA

Technical Specifications
16- Frames allow for a full range of component mounting heights, with slots every ¾” to 1”.
17- Frames include self –leveling, or single-tool adjustable glides for uneven floors.
18- Filler Pieces – All exposed ends of frames are covered with hard surface finished trim pieces.
19- Within frames over 36 inches high, multiple levels of electrical and/or voice and data can be accommodated.
20- Frames shall have the ability to be powered and non-powered.
21- Sliding or pocket doors available.
22- Storage units constructed of a minimum of 20-gauge steel with a baked enamel surface, or powder coat paint finish.
23- Files accommodate letter or legal filing capabilities. All necessary hanging rails shall be included as a part of the installation.
24- User can open the cabinet door from a sitting position. In addition, either a simple touch type/easy open and easy close lift or a hinged door application is required.
25- Lift-assist mechanisms to open and close overhead storage.
26- Cabinets easily accessible with ADA compliant pulls.
27- Open shelving has the capability to convert to closed cabinets storage on site.
28- Pull out shelves available as an option on storage cabinets
29- Finishes available in the same woods (fronts only) and painted surfaces to match other components in the system
30- Storage units have leveling glides.
31- Storage units have capacity to house coats, personal items and files.
32- Mobile fixed and freestanding storage with box/box/file or file/file option available.
33- All locking devices within the station will be key alike.
34- Task lights available and equipped w/high-efficiency, rapid start, fluorescent bulbs.
35- Task lights designed to be compatible with the system, with option to be table mounted, panel mounted or mounted under storage components.
36- Ergonomic keyboard trays available that accommodates keyboards of any length.
37- Keyboard tray adjustments shall be spring force assisted or pneumatic. Tray tilt up to 10 degrees, front to back and reverse.

Furniture Procurement RFI for DISA

Technical Specifications
38- Keyboard tray adjusts at least 6 inches vertically to accommodate different sized personnel.
39- Keyboard tray arm recesses fully and pivots out of the way under the work surface for storage.
40- A non-handed attachable mouse tray with a 10 degree tilt and a palm/wrist rest is available.
41- Shallow display shelf for personal items available.
42- Transaction counters available as an option.
43- Pivot arm for flat screen monitors that articulates freely is available
44- Accessory boards or rails match panel sizes.
45- Paper management devices available with horizontal, vertical and diagonal options, as well as panel mounted applications.
46- Paper management includes a slanted file-holder, pencil cup, in/out box, and phone tray.
47- Personal storage tower height match height of workstation frames nominally.
48- Personal storage tower available in 24" width.
49- The following storage configurations shall be part of the product offering: <ol style="list-style-type: none"> 1. Flipper door. 2. Open shelf. 3. Lateral file drawers. 4. Box drawers. 5. Hinged cabinet doors. 6. Wardrobe. 7. Bookcases
50- Drawers on Personal storage tower operate on extra heavy duty ball bearing suspension or equal.
51- File drawers have full extension.
52- Mobile pedestal with cushion tops; one box drawer and one file drawer.

_____ *Yes, Responder meets specification.* _____ *No, Responder does not meet specification.*

If no, please define any exceptions. _____

3.0 SUBMISSION CRITERIA

3.1 Reponse Due Date and Time

Responses are due *June 4, 2008, by 3:00pm*. Responses must be submitted to:

US Army Corps of Engine
10 South Howard Street, Room 7000/Leketa
Baltimore, MD 21201
410-962-5637
Email: donna.leketa@usace.army.mil or
